

SAMPLE JOB DESCRIPTION

Role: Web Designer | Experience Level: 5 Years

Job Overview

Company	Creative Pixel Studio
Department	Design and Digital Experience
Job Title	Web Designer
Experience Required	5 years
Employment Type	Full-time
Location	Remote / Hybrid

Job Summary

The Web Designer creates visually compelling and accessible website interfaces, collaborates with developers and content teams, and maintains a consistent digital brand across web pages and landing experiences.

Key Responsibilities

- Design responsive website layouts, landing pages, and reusable UI components.
- Create wireframes, mockups, and interactive prototypes for stakeholder review.
- Translate brand guidelines into polished web visuals and page templates.
- Work closely with front-end developers to ensure design accuracy and usability.
- Optimize graphics, typography, spacing, and interaction flow for modern web standards.
- Review and improve accessibility, readability, and mobile responsiveness.
- Support A/B testing and design iteration based on user feedback and analytics.

Required Qualifications

- At least 5 years of experience in web design, UX/UI, or digital product design.
- Strong portfolio demonstrating modern websites, landing pages, and responsive layouts.
- Proficiency in Figma, Adobe XD, Photoshop, Illustrator, or equivalent design tools.
- Solid understanding of HTML, CSS, and front-end design constraints.
- Experience working with developers in Agile or cross-functional teams.
- Good knowledge of accessibility, responsive design, and visual hierarchy.

Preferred Skills

- Motion design and micro-interaction planning.
- Basic familiarity with content management systems.
- Photography editing and iconography support.
- Experience with design systems and component libraries.
